Mission of the Democracy.

The first number of the Fairfield (Conn.) *Democrat*, gives among the reasons why it buckles on the armor, the following:

The Government which sprang from the blood, peril and heroism of the American Revolution, the Government we have all learned to love, and all nations to respect; and that also under whose Democratic administration we so prospered and grew to greatness, is being bled to death by a Radical mob in power at Washington—is fast losing its symmetry and strength. *The people are bound in slavery.* Taxes are piled mountain high upon all the laborers of the land. The mechanic, the farmer, and all working men of America are taxed without limit, without reason, and for the benefit of idle capital that pays not a cent of tax. A Radical Congress, bought by the money of the monopolists, sits all the year through devising means to make the poor man poorer, and the rich man richer.

An ignorant tool of a few politicians occupies the White House, and about are gathered the sashed and epauletted officers of the Federal Army, whose command has superseded the desire of the people and direction of the civil government we enjoyed in the days of the Democracy. The citizens of the great sovereignties of the Union vote under the restraint of the bayonet, and civil liberties and personal freedom bid fair to be crushed beneath the rough heel of military despotism.

Already the Washington government has become an oligarchy; it is but a step to a monarchy as bad as any the Old World has known.

With the condition of things about us, it is the duty of the people to support a free press, which is the terror of tyrants. With an outspoken and untrameled press the people must restore their liberties and their rights. The carpet-baggers and scallawaggers who infest the South are daily sending fearful accounts of the murders and depredations of those bugbears called the Kuklux. Only a few days ago an officer published a report stating that these outrages were much exaggerated, and merely got up by intercested parties. If the South went Radical we would not hear a word of these paper murders. It is evident that Grant is preparing the way to let forth his militia, or Federal troops, to terrify the Southern people into good Radicals.

North Carolina is not to be reconstructed because her Legislature impeached Holden and elected Vance. Not for the brutal lawlessness of her people, not on account of the fabled acts of her Kuklux, but because she is Democratic and opposed to tyranny and Radicalism! The disappointed Southern Radicals are now at Washington intriguing to overthrow the newly reconstructed State. Their baseness is equaled by their perfidy. They now plot to destroy both North and South, in order to regain the power they perverted and abused. Should Congress yield to the partisan madness of these disappointed scallawags and Radical carpet-baggers, and annul the recent elections in the South, depose the newly elected State authorities and usurp control over the machinery of elections, there will be an end of the liberties which the Americans have suffered so much to preserve and which they prize so dearly.

The assumption by Congress of authority to manage, not merely Federal, but also State and municipal elections, should be resisted by men of all parties. If this power should ever be conceded to Congress and the President the people will have to surrender their best safeguard against centralization.

Louis Napoleon was enabled to stifle all expression of popular opinion, nullify universal suffrage and establish the Empire, which was finally extinguished at Sedan. It is the duty of every American citizen to attend punctually all political meetings, and particularly at elections to vote against tyranny and Radicalism, retaining their liberties and rights by voting against the Radical evil which, if not nipped in the bud, will assume a new form, and the machinery will be inaugurated for the establishment of a centralization—whether it be called an empire or not—that can only be destroyed by revolution.

A RECIPE FOR HAPPINESS.—It is easy when you rise in the morning to form the resolution to make the day a happy one to a fellow-creature. It is easily done—a left-off garment to the man who needs it; a kind word to the sorrowful; an encouraging expression to the striving—trifles in themselves as light as air—will do it, at least for twenty-four hours; and if you are young, depend upon it that it will tell when you are old, rest assured that it will send you gently and happily down the stream of time to eternity. Look at the result. You send one person—only one—happily through the day; that is three hundred and sixtg-five in the course of a year; and suppose you live forty years only after you commence this course, you have made fourteen thousand six hundred human beings happy, at least for a time. Now, worthy reader, is not this simple? We do not often indulge in a moral dose, but this is so small a pill, that no one needs currant jelly to disguise its flavor, and requires to be taken but once a day, that we feel warranted in prescribing it. It is most excellent for digestion, and a promoter of pleasant slumber.—*Oakland News.*

FRANK BLAIR.—The Solano *Republican* says, "Frank Blair is still unreconstructed." While Frank Blair was fighting the battles of the late war as vigorously and valorously as any man who ever wore a blue coat, the editor of the *Republican* was here in California, far out of the reach of "villainous rebel bullets," and it strikes us that, considering the circumstances, he ought to let Blair entertain whatever opinions he pleased, unquestioned as to his "loyalty" at least. Blair, however, is a thorn in the Radical flank, and we may expect him to be abused by the homeguards, whose only war record consists of brave words fiercely spoken at a safe distance from the front.—*Santa Clara Argus.*

THE advocates of railroad subsidies, says the Los Angles *News* contend that if any man or set of men wishes to own a railroad, the people should be taxed to build it for him. Suppose another man wishes to own a woolen mill or cotton factory, why, on the same grounds, should not the people at large be compelled to build it for him?

How Ku-Klux Stories are Manufactured for Base Purposes.

In the Senate, March 1st, the following proceedings were had:

On motion of Mr. Hamlin, the Senate took up the resolution to continue the investigation by the special committee on Ku-Klux outrages in the South, during the first session of the Forty-second Congress.

Mr. Casserly, (Dem., Cal.), moved to amend by requiring that the proceedings of the committee be published. His object was to prevent false impressions upon the public by one-sided newspaper statements of the testimony.

Mr. Blair, (Dem., Mo.), one of the Democratic members upon investigation, referred to statements of the testimony before the committee alleged to have been made by the Chairman (Mr. Scott) before a Republican caucus. He was confident no such statements had been made, because there was no truth in them. There was no evidence before the committee rising to the dignity of a fact in support of such statements. He desired the testimony made public in order that the whole communities, as well as the individuals whose characters were now secretly maligned, might have an opportunity to disprove the accusations.

Mr. Scott (Rad., Pa.), said secrecy was not desired by the members of the committee, but was necessary for the protection of witnesses, some of whom had appeared before the committee at the risk of their lives.

Mr. Blair thought the objection not valid, as the names of the witnesses and their testimony would eventually all be published. If communities were not allowed to defend themselves from crimination of unknown persons the whole investigation would be simply a secret inquisition and a despotism.

Mr. Bayard (Dem., Del.), the other Democratic member of the committee, inquired whether the continuance of the committee would have the effect to invalidate testimony already taken. He did not desire that that should be lost. Complaining of the efforts which had been made to forestall public sentiment by means of one-sided petitions, Mr. Bayard had read a paragraph from an Alabama newspaper, headed "A Minister Ku-Kluxed," the purport of which was that a Methodist preacher had been assaulted by some nine men in disguise, because he had attempted to preach the Gospel to black people. An official investigation was made under direction of the Governor of Alabama, when it turned out that the supposed preacher was a fugitive from justice, charged with having committed rape in Georgia, and instead of preaching the Gospel was inciting the negroes to violent assertions of their politieal equality. It had also appeared that the story of the outrage had originated entirely from the fact that the owner of the estate upon which this man was staying, upon venturing to remonstrate with him, was assaulted by him with a knife.

Mr. Casserly's amendment was then rejected and the resolution adopted.

THE FUTURE SUPPLY OF WATER.—The matter of the future supply of pure water to San Francisco and other cities of our State being one of vast importance, the following letter will be generally read with interest:

OFFICE LAKE TAHOE & S. F. WATER WORKS, S. F. March 7th, 1871.

GEORGE CADWALADER, Sacramento—Dear Sir: Your note of yesterday has been received. In it you state as follows: "A number of persons residing here would like to know the condition of your project for tapping the waters of Lake Tahoe, and therewith supplying the principal cities of California, which I understand includes Sacramento."

In reply to this I have the honor to state we are in earnest, and intend to commence work early in the Spring. The first work will be to run a tunnel through the Sierra Nevada mountains, which I estimate will take about three years. At the same time we contemplate making our canal and laying our pipe to the city. The main pipe leading to Vallejo, Oakland and San Francisco will be large enough to convey at least forty million gallons of water per day.

You will perceive from this that we shall be able to supply your city with all the water it may possibly require. The elevation or head at your city will be 350 feet. The cost of water will undoubtedly be much less than at present. We intend to sell as wholesalers only, leaving the cities supplied by us to sell the watter to their inhabitants at their own rates and terms.

Very respectfully, yours, etc.,

A. W. VON SCHMIDT,
President Lake Tahoe and S. F. Water Works.

CHINESE CRUELTY.—The China *Mail* of January 12th says: "Foochow, or, more properly speaking, Nantal—the foreign settlement in fact—has been again the scene of those dreadful specimens of Chinese cruelty and inhumanity which was recorded in our columns some four or five months since. For a period of five or six days a crowd was seen to be assembled on the bridge witnessing and apparently enjoying the torture inflicted on one of their fellow countrymen, who was exposed to the public gaze in a wooden cage, with his arms and legs pinioned, and his feet scarcely able to reach the ground in consequence of the manner in which his head was secured in the upper part of the cage. In the evenings he was removed to a quiet spot, where he was temporarily relieved by having a few bricks placed under his feet; not that his keepers had any sympathy for him, but merely to prolong life until the following day, when he should be placed on the bridge, there to suffer until death ensued.

REDSTONE.—Who is the fellow that calls himself A. E. Redstone? Why, he is the man that was expelled last week from the Workingmen's party, through the columns of the *Examiner*. Is this man (Redstone) that made an attempt to draw disunion between all trades in the Navy Yard? Certainly, it is the same man. Is this the man that fled to Washington, and stole back and tells the labering men he will get them all appointments in the Navy Yard? Certainly, it is the same man.—*People's Journal.*

THE greatest natural bridge in the world is the natural bridge over Cedar Creek, in Virginia. It extends across a chasm eighty feet in width and some 250 feet in depth, at the bottom of which the creek flows.

Editorial Life and Dissipation.

Some months since the Rev. Henry Ward Beecher, in the course of a sermon at the funeral of a New York journalist, took occasion to reflect upon the editorial profession in general as given too much to habits of dissipation. We thought the indictment somewhat harsh, believing that when all the conditions surrounding the life of the average journalists are taken into account, editors are not as a class worse, but rather better, than the mass of men; that there is really as great, if not greater, attention paid to temperance in all things by the members of this as of any regular profession. We are still disposed to cherish this view, and yet it must be conceded that there is enough of dissipation in the ranks of journalists to waken the liveliest regret among those who honor the calling and to challenge the attention and effort of every wellwisher of the profession to the end that the evil may be brought fully into view, and, if possible, its progress stayed. Conceding to journalists no higher quality of moral discrimination and no greater ability to resist the demands of appetite and the behests of passion, than are possessed by other men whose education and opportunities have been equally favorable, it is not difficult to understand why those engaged in newspaper work might be more given to sensual indulgences than men in any other calling of life. The temptations that wait upon every step of the journalists are greater in number and more urgently pressed than any other class of men are called upon to contend with. He is a public character whose company men seek, whose friendship and aid all men desire, and whose presence is always welcome. Thus at every turn he is brought into contact with some one who is anxious to manifest his good feeling of friendship, and the wine cup is brought into requisition. Furthermore, the general demands of journalism upon the vital forces of those engaged in it are to some extent responsible for this dissipation. The newspaper press of to-day is a treadmill, the ceaseless terrible toil of which exhausts the energies and grinds out the life of its victims with certainty and rapidity possible to no other calling, and under the enervation and deteriorating strains upon the mind and body that it imposes, the irregular and unsettled life that it inflicts, the call for some stimulant that will invigorate failing vitality is often imperatively called for if not indeed necessary. Still the vice is one to be seriously and earnestly discouraged, for in its prevalence not alone are individuals, many of them men of splendid promise, dragged down to ruin, but the profession of journalism is lowered in the public estimation, and the title of editor is made a reproach rather than what it should be, a term of honorable distinction among men, and of social worth and influence to its possessors.—*Printing Gazette.*

EFFECT OF PEACE ON THE PRICE OF BREADSTUFFS.—The European war having ceased, many are inquiring what will be the effect of peace on the price of breadstuffs. A million of men in France suddenly cease to produce anything and become consumers. A very large portion of this country was laid waste, and cannot possibly be put under cultivation in time to produce crops at the next general harvest. It takes time to make the transition from war to a peace footing. A few days ago thousands in France were on the border of starvation. Their condition is not much better to-day. The country is drained and bare of food. These millions must have bread, and they cannot wait for the next harvest which will be a diminished one at least.

Germany has not been laid waste; but immense armies have been organised and led out of the country. These men, while they produced nothing, have drained Germany to a large extent of breadstuffs, and the next harvest will hardly make up for present deficiencies.

On the whole, it seems to us that peace rather increases the prospect that both parties will become large buyers of breadstuffs. The military forces are paid off, large sums of money are put in circulation, the soldiers must have bread at once. The governments of the two countries lately at war, will probably cease to be as large purchasers as formerly. But individual buyers will step in and meet all these demands. From the present outlook, it is hardly probable that peace will depress prices much for some time to come. There is time for Spring sowing in France. But the next harvest in that country will be affected by so many contingencies that we may safely assume that we shall find a brisk market for breadstuffs until some time after our next harvest.—*S. F. Bulletin.*

SWEEPING THE OCEAN BOTTOM.—Science is busily at work exploring air, earth and sea. During the past summer and autumn, have been made many remarkable discoveries in dredging the bed of the sea from the Bay of Biscay to the Faroe Islands, from the depth of a few fathoms near the shore to nearly three miles out at sea. It is ascertained that there is a stratum of warm water from 15 fathoms upward, a stratum of ice-cold water from 300 fathoms downward, and a stratum of intermixture between the two. It was formerly supposed that no animal could exist lower than 300 fathoms, but various forms of animal life have been brought up from the profound depths of the ocean, many species have been found altogether new to science. Some of the animals brought up from a depth of 1,270 fathoms, or nearly a mile and a half, had perfect eyes, while the color of their shells indicated the influence of light.

WITHIN a mile of Haywood, Alameda county, five men have been following a lead of coal in the hills for a length of time. About ten days ago they got gold—not enough to draw a crowd," but enough to pay them wages for working. This is another evidence that the entire coast range in that region is impregnated with the precious metal.

THERE were two regularly established balloon companies in Paris during the late siege. The one firm was Dartois & Yon and the other consisted of the two brothers Julius and Eugene Godard. Godard engaged to construct a balloon of 6,000 metres girth, capable of carrying twenty persons, the price of a single passage rating at about four hundred dollars.

Hurricane and Loss of Life.

March 6th a hurricane passed over East St. Louis, causing much damage. The wind struck the elevator on the bank of the river and took parts of its roof off. Passing on in a due northeast direction, it totally demolished the freight depot of the St. Louis and Vandalia Railroad, 800 feet long by 100 wide, and a water tank 80 feet high; the freight and passenger depot of the Southeastern Railroad, two freight depots, a portion of the passenger depot and a ticket office, and a large round house of the Chicago and Alton road, the car house, scale office, freight office and part of one of the freight depots of the Ohio and Mississippi road, the freight and passenger depots of the Toledo and Wabash road and a number of dwelling houses in the vicinity.

A portion of the roof of the Terre Haute and Indianapolis depot was blown off, and nearly all the surfacing and other appliances used in constructing the bridge were torn away from their places and blown into the river. Everything within a width of from two to three hundred yards was actually torn to pieces. A whole train of cars including a thirty-ton locomotive, was blown from the track and hurled some forty feet into a slough. Another train of thirteen cars laden with grain, was overthrown and smashed, and one car was blown into the river. A train coming in on the Terre Haute road, when at Brooklyn, three miles north of East St. Louis, was blown from the track, and some forty cars standing on side tracks of the Toledo and Wabash, and Chicago and Alton Railroads, about nine miles out, were overthrown.

The round houses of the Chicago and Alton Railroads, after being blown down, caught fire from an engine inside, and its ruins were burned. The engineer of the locomotive was burned to death.

The number of killed and wounded cannot be stated, but seven are known to be killed, and between thirty and forty seriously, some dangerously wounded, and about as many more slightly injured.

It is believed a number of persons are still buried beneath the ruins. The scene is frightful. Houses are torn to fragments, others unroofed or upset, and still others carried bodily from their foundations. Scarcely a building or tree or anything else within the track of the storm is standing. The wreck and ruin is complete. The pecuniary losses are estimated as follows: Chicago and Alton Railroad, $500,000; Ohio and Mississippi, $200,000; Toledo and Wabash, $125,000; St. Louis and Vandalia, $50,000; Southwestern, $30,000; Wiggins' Ferry Co., $25,000.

European News.

Paris, March 4.—Not a German soldier remains here. The Saxons passed out at 10 o'clock yesterday morning, marching in front of the Arc de Triomphe, amid the profound silence of a few spectators. By noon the evacuation of the city was complete. The German Emperor afterward reviewed 100,000 men in the Boise de Boulogne.

The Prussian leaders are disappointed at the coldness and implacable attitude of the Parisians. Several journals resume publication to-day. They are unanimous in the opinion that the impression produced by the preliminary terms of peace are very bad. They declare that no peace can be real when obtained under such conditions, but they recommend calmness and concord as the means of making the country great and prosperous.

The city was quiet to-day. A number of persons suspected of being spies, have been arrested by the people, and several women who were seen talking with the Prussians on the Champs Elysees were severely handled.

The Minister of the Interior in a proclamation, congratulates the inhabitants on their attitude during the occupation.

The *Cri du Peuple*, in an article signed by Jules Fanin, incites the poor to war against the rich.

LONDON, March 5.—There is a report that parts of Paris are disaffected, and the revolutionary element, have intrenched themselves at Montmartre, where they have a battery of twenty-seven guns, and all the approaches are guarded.

From the preparations making at Chislehurst, it is believed that Napoleon will rejoin the Empress there and remain some time in England.

Land Office in Marysville, and will be delivered upon the surrender of the duplicate receipts. Persons sending by mail must inclose postage stamps sufficient to prepay return postage: No. 3,907, Wm. Malloway; 3,915, Peter J. S. Tully; 3,950, Martha L. Owen; 3,951, Henry Small; 3,952, Chas. A. Ghidden; 3,953, Michael O'Connor; 3,954, John Lee Wallis; 2,955, James D. ORIGIN OF THE CIGAR.—The first account we have of the cigar is found in the works of Navarette and Las Casas, and is quoted by Irving. In describing the first voyage of Columbus, he says: "They beheld several of the natives going about with fire brands in their hands, and certain dried herbs which they rolled up in a leaf and lighted one end, put the other end in their mouths, and continued exhaling and puffing out the smoke. A roll of this kind they call a 'tobacco,' a name since transferred to the plant of which the rolls are made," though this is the name by which the cigar is known in Cuba. Oviedo speaks of it among the evil customs of the Indians of Cuba, very pernicious, and producing insensibility." The mode of smoking was by inhalation through the nostrils by means of a hollow, forked cane, the forked ends being inserted in the nostrils, the other end applied to the burning leaves of the plant.

YOLO DEMOCRAT.

County Official Paper.

WOODLAND, CAL:
Saturday, March 18th, 1871.

DEMOCRACY TRIUMPHANT.

At our municipal election, which took place on Tuesday last, the contest was won by the Democracy. This is of great local importance, being the first election held since the incorporation, and presages what the result of future contests of the same character will be. The vote stood thus, according to the canvass by the Judges of Election:

Democrats.		*Republicans.*		*Maj.*
TRUSTEES.				
Lowe	167	Freeman	155	12
Hubbard	179	Gray	158	21
Giddings	169	Elliott	132	37
Kaufman	181	Deitz	142	39
Schuerley	172	Smith	147	25
MARSHALS.				
Lawson	178	Pockman	141	37
TREASURER.				
Green	170	Morin	144	26
ASSESSOR.				
Robertson	183	Porter	139	44

This gives an average Democratic majority of thirty—more than we anticipated, while some expected even a larger majority. For a town election the fight was a warm one, and as a prominent Republican remarked to us next morning, we "met foemen worthy of our steel." As to the means they used being worthy of our "foemen," we shall leave that for them to determine. There was a pretty full vote polled, reaching 337. After the result was announced the Young Democracy of course became jubilant, and to the extreme limits of our little town resounded the rousing cheers that went up for the candidates whose battle had been won and for the party whose principles they represented. It was, as all popular elections are bound to be, a square party fight. The "People's" and "Citizens'" dodges attempted to be played upon the people by the Radcal leaders would not work. Still, notwithstanding every candidate on the defeated ticket was a straight out Republican, it was headed "Citizens' Ticket." But the citizens themselves didn't see it in that light, and by their votes have placed the seal of their condemnation on those who managed the affair, and have elected men to fill the town offices in Woodland who will sail under the true colors of Democracy—men who would scorn to be known by any other name. The voters of Woodland have done well in choosing honest and capable men to manage their town affairs.

EARTHQUAKE.—Another shock of earthquake was felt in New Hampshire March 5th.

ARRIVAL.—Hon. James A Johnson, late Congressman from this District, arrived at Sacramento on Monday last.

OCEAN CABLE.—The rate of charges by ocean cable has been restricted by Congress not to exceed five dollars for ten words, exclusive of address and signature.

DEATH.—Horace Hawes died in San Francisco on Sunday last aged about sixty years. His estate is reported to be worth $2,000,000. He was the author of the Registry Law of this State.

SANDWICH ISLANDS.—The late earthquake in Hawaii is said to have been quite severe, doing great damage to property in town and country, but no lives were lost. The commotion lasted for a minute.

PRISON COMMISSION.—The Fifth Annual Report of the California Prison Commission is recieved. The pamphlet embraces the report of a prison visitation at the East, by the Secretary of the Commission, with various suggestions as to the management of the prison hereafter which will recieve further notice.

HONORABLE.—The *Mail* admits that that a Committee of Republicans waited upon a candidate for Trustee on the Democratic ticket at the recent election, and requested him to withdraw his name from the ticket. The same paper makes no comment on the action of the Committee but admits that the candidate acted honorably in refusing the request. We concur.

NEWLY LOCATED.—The YOLO DEMOCRAT gravely puts down the handsome and noted town of Marysville as in Butte county. There's knowledge for you!—*Mendocino Democrat*, 11*th*.

If the author of the above would be more careful in throwing out his knowing slurs we should feel obliged to him. We are not aware of any such blunder having been committed in this paper as is above ascribed to it.

HOW THE PEOPLE VOTE.—The Democrats of New Hampshire took strong ground against subsidies and monopolies. Their sweeping victory shows how well and how promptly the people responded. Here is a timely lesson to the Democrats of California. Let us do the same thing, and we will meet the same response. Once bring these great corporations fairly before the people and their strength is gone. The Democratic party of California must do this at the next election. To shrink the call of duty is destruction; to obey is certain victory.

ONE RESULT.—Previous to our Town election a number of leading Republicans worked hard to secure the nomination of a mixed ticket. In this, their seemingly disinterested motives were urged in the secret hope of laying a scheme which was to be the entering wedge for the introduction of a "Pinto Ticket" next fall. But true Democrats who have manfully battled against the party of proscriptionists in adversity as well as prosperity "couldn't see it." The fact is, in the classical language of the Republican organ, "oil and water wouldn't mix, and the thing busted."

NEW HAMPSHIRE.

We have glorious news from New Hampshire—a sweeping Democratic victory in one of the States that for twelve years has been a Radical stronghold, and where the gallant and timetried Democracy have now elected their candidate for Governor, a majority of the State Senate, the Council and the Congressional delegation from the Granite State—three members—to swell the already large Democratic minority in the present Congress, while only a majority of 10 to 20 is claimed by the Radicals in the Assembly—a body of some 300 members. Many causes have contributed to this result. The people, even in New England are beginning to appreciate what Radicalism means, and its latest developments have disgusted even them. The tariff, too, has entered largely into the contest. New England, once the hot-bed of protection, now that the protective tariff has utterly destroyed one of her most profitable branches of industry and is crippling many others, is beginning to think that there may be too much of what she once imagined a very good thing. And then the shameless San Domingo job, and the degradation of the very leader of New England Radicalism because he would not bow down at the beck of the Administration, has aroused a strong feeling of opposition among many of those who have heretofore been the staunch adherents of the Republican party. This victory comes at a good time. It will add immediately—as soon as their credentials can be made out—three Democratic Representatives to the already large Democratic force in the House of Representatives; it will bring strength and enthusiasm to the good cause all over the Union; it marks, more than anything that has yet occurred, the turn of the tide, and presages victory in States which, like New Hampshire, have heretofore steadily voted against Democracy. Verily, the sun of Radicalism has set.

MORE RECONSTRUCTION.—The attempt to reconstruct the South by putting the whites beneath the feet of the negroes has failed, as every sensible, unprejudiced man knew it would fail—failed by virtue of laws of human nature as immutable as that of gravitation is in the material world. And yet it seems there is to be another and still more wicked attempt to carry out the same purpose by similar means. The bill to remove political disabilities has been killed in the House, and the Radical majorities in both branches of Congress have resolved upon putting through another bill, which, under the guise of protecting Southern negroes from Ku-Klux outrages, is intended to re-establish military rule in States which have been proclaimed as thoroughly reconstructed, and to secure by force and fraud their electoral vote for the next Republican candidate for the Presidency. Let them go ahead and frame law after law, each more vindicative and destructive than the last. They can but add to the deep condemnation which has already been stamped upon Radicalism.

GRANT'S VISIT.—It is now certain that we shall have a visit from the President soon after Congress adjourns, and as our correspondent tells us, a meeting "irrespective of party" has already been held in San Francisco to take steps for his reception. While we wish to treat him as President of the United States with due cordiality and respect, we trust there will be, on the part of Democrats at least, none of that miserable flunkeyism with which California too often treats distinguished men. The course of General Grant since his inauguration has not been such as to exalt his office or endear him to the people, and though respect to ourselves demands that we should treat the President with respect, ovations to the man should be left to those who profess to admire his official course. This visit, it is said, has a political object, but we opine that in this it will be a failure. The people of California are not fools to be seduced by the smile or led by the beck of even so great a personage as President Grant.

SENATOR FOR COLUSA AND TEHAMA. Stephen Addington, Esq., one of the proprietors of the Colusa *Sun*, in reply to various solicitations, has published a letter announcing himself as a candidate for the State Senate, for the District composed of Colusa and Tehama counties. Mr. Addington states in advance that he is opposed to satisfying the greed of all monopolists and corporations at the expense of the people; will "extend a helping hand to the mechanic and artizan, who are struggling for a livelihood against oppression and Chinese competition." Mr. Addington is a Democrat of the right stripe, and we trust that he will fare well at the hands of the Senatorial Convention of his District.

ONE RELIABLE MAN.—Our neighbor says emphatically that there is *one* reliable man hereabouts and that he is a Republican. What is the natural inference? Does he mean that there are no more than *one* of that sort in his party? If so, we think he is uncharitable. There are quite a number of reliable men in the community, and we thought certainly that more than one of them were Republicans. Good men sometimes go estray politically, and whenever "one reliable man," or more, are done with the sinking cause of Radicalism, we stand ready to welcome them back to the fold of Democracy.

BECOMING RURAL.—The Lakeport *Avalanche* says that Hon. O. P. Fitzgerald, State School Superintendent, visited that town a short time since, and during his visit purchased a farm of Mr. R. N. Steere, of that place, for the purpose of building a Summer residence.

Letter from San Francisco.

SAN FRANCISCO, March 16th, 1871.

JOHNSON BACK.

"Doc." Johnson is here, stopping at the Brooklyn Hotel, and is run down by his admirers. It was intended at first to give him a first-class reception, or at least a serenade, and an informal meeting was held at the Brooklyn for that purpose, but for some reason or other the project fell through, and the exact time of his arrival in this city was carefully concealed. He is here anyhow—arrived yesterday morning, *via* San Jose, and since that time has done a deal of handshaking. His arrival, of course, spurs up the Johnson men considerably, and on the street to-day his advocates are more enthusiastic and outspoken; but beneath all this there is a coldness and apathy that must somewhat dampen the hopes of the Gubernatorial aspirant, though I hear he proclaims his intention to make the fight beyond all preadventure. Yet, as I have mentioned before, it is already plain that he cannot unite the opposition to Haight, while no one of cool judgment imagines that he can begin to run before the people as well as that gentleman, or even as well as some others who might be named. One of the strongest elements of the opposition to Haight in this city is the Irish wing of the party, who are aggrieved because so many of Haight's appointees belong to the Southern wing and took part in the defeat of McCoppin. But this element is still less likely to coalesce on Johnson.

THE ARRIVAL OF GRANT.

Grant is expected to start for this Coast as soon as he gets through the San Domingo business and Congress adjourns. A meeting is to be held this afternoon at the office of Adjutant General Cazneau for the purpose of taking preliminary steps for his reception. As we have not had an "enthusiastic welcome" for some time, it is probable that this movement will catch the right breeze and that San Francisco will outdo herself in lavish hospitality. It is intended to make the reception irrespective of party. Whether Democrats to any number will unite in it remains to be seen. The real motive of Grant's trip is to exert an influence on the election, with the special view of securing the re-election of Cole. The Republicans count on his visit as one of the things that will enable them to carry the State. We shall see.

ST. PATRICK'S DAY.

There has been a deal of flurry and worry about St. Patrick's Day, which has not found its way into the papers. It seems that Father Foley, the Irish priest, who has been selected to deliver the oration, came here for the purpose of raising money to aid in the completion of a cathedral near Cork. Bishop Alemany permitted him to take up one collection at the cathedral but forbade his lecturing and advised Catholics not to go to hear him. Father Foley insisted on lecturing and drew an audience that took up every inch of room in Platt's Hall. The clergymen irritated at this, made up their minds that he should not deliver the oration on the Seventeenth, and started out in a very active canvass against him. How they would have succeeded it is impossible to say; but as soon as the motion was made in the Convention last Sunday to remove him, a motion was made to adjourn, which was carried by a ringing shout of "aye," and so Father Foley remains Orator of the Day, and consequently neither the Bishop nor any of the clergy will take part in the proceedings, as has heretofore been their custom. This thing has made a good deal of bad blood; but nevertheless St. Patrick will receive a magnificent ovation on Friday.

THE COLORED COMPANIES.

I was a little too fast last week in telling you that the colored companies had resolved to turn out with the Irishmen. That was the feeling with the members; but subsequently the matter was talked over at a colored church meeting, and a contrary resolution informally come to. The matter is not yet decided, the companies intending to decide the matter to-morrow night. If they decline, well and good; if they accept, they will have an honorable place assigned them in the procession.

THE ST. PATRICK'S DINNER.

Should they accept and parade, and afterwards should any of them by chance get a ticket and ask admittance to the aristocratic dinner at the Occidental in the evening, the "Friendly Sons of St. Patrick" have resolved to take the bull by the horns, accept the situation and treat the colored people with impartial hospitality.

NEWSPAPER MATTERS.

The *Examiner*, which is showing a good deal of vigor now-a-days, has been getting after the *Call* for following the wake of the *Chronicle* in sensationalism. The rebuke is deserved, for the *Call* is getting to be as bad as the *Chronicle*. The other day it published a most vile fling at a most estimable lady residing here, though there is no doubt that it did so without malice, having been inadvertently led into the trap by its desire to get something sensational.

If you want to see a new edition of the old *Flag*, with all the latter's brilliancy and well nigh all its recklessness also, look at the Oakland *News*, for which Calvin B. McDonald and several other "Bohemians" are now uniting. The *News* is getting up quite a large circulation on this side of the water, as the Republicans here seem to have a relish for something stronger than the milk and water to which the *Alta*, *Bulletin* and *Chronicle* treat them.

DECLINES.—Hon. Thomas Guthrie, of Buckeye, publicly announces his withdrawal from the candidacy for Lieut. Governor before the Democratic Convention, in favor of Hon. William Minis. The latter gentleman not being a candidate for the position, regrets the withdrawal of Hon. Thomas Guthrie, and at the same time tenders his thanks to him for his kind consideration. Mr. Minis recognizes the superior qualifications of Mr. Guthrie and will doubtless advocate the claims of the honorable gentleman and his friend, the Colonel, for the respective positions of Governor and Lieut. Governor of the State of Buckeye.

THE YOUNG PILOT.—The March number of this successful magazine is in all respects fully up to the standard attained by previous issues. "My Uncle's Watch" is continued, the interest being fully maintained. An Interesting article entitled "A Reminisence" is contributed by Rev. C. E, Cheney. "Picked Up Dinners," (not by "Willy the Wisp"); a poem by Thomas Powell, and other papers are more than ordinarily interesting, *The Young Pilot* is intended "for those who are neither very young nor very old." Subscription, $1 per year; *Young Pilot* Pub. Co., Chicago.

NEVADA.—In the Nevada Senate a bill has been passed "To authorize the Benevolent Association of this State to give three concerts (gift) to provide for the erection of an Insane Asylum." In the Assembly, the proposed amendment to the Constitution to enable women to vote, failed by 21 yeas to 22 nays.

THE OAKLAND NEWS.—A few days ago the Oakland *Daily News* came along as an exchange, and regularly since. As a readable Radical paper the *News* takes high rank. Even the Marysville *Appeal* must "play lively" or its lively rival will carry off the palm. In the first number received we noticed it talked as glibly of "copperheads" as the most rampant of sheets did during the war, gloated over removals in the Navy Yard of those who failed to bow down to Radicalism, while it characterizes good and true citizens of the Democratic party as "rebels, like him of the *Examiner*."

"FOR EVERYBODY."—This is the name of an elegantly printed 16-page paper, finely illustrated, and its contents are, so far as we have examined, chaste, select and very entertaining. A long poem upon "Our Civil Service," dedicated to the United States Congress, by Matilda Fletcher, we shall try to make room for next week. Published monthly by Henry H. Lage, 26 Allen st., Buffalo, N. Y., at $150 per onnum.

SACRAMENTO ELECTION.—The election in Sacramento resulted in a victory for the Republican ticket by majorities ranging from 250 upwards—a considerable reduction from the majorities of a year ago.

WHOLESALE HARDWARE HOUSE.—The attention of farmers and others is directed to the advertisement, of Rockwell, Coye & Co., of San Francisco, dealers in hardware, farming implements, etc.

FREE ADVERTISING.—From family to family, from city to city, from State to State, the fame of Dr. Walker's Vegetable Vinegar Bitters as a specific for all derangments of the stomach, bowels and liver, is continually extending. Every invalid who tries the great restorative, every individual who has ever witnessed its effect, becomes its *spontaneous advertiser*. Its voluntary missionaries are innumerable, and public enthusiasm in its favor spreads faster than a prairie fire.

TO READERS WHO ARE NOT SUBSCRIBERS.—The Sonoma *Democrat* makes a timely suggestion, drawn out by the fact that we are now entering upon a very important political campaign, which we copy entire and recommend its consideration by the Democracy of this county. Every subscriber, if he will, can influence one other to support his county paper. Read: "As we are now entering upon one of the most important political contests that has ever come off in our State, no Democrat should fail to subscribe and pay for his county Democratic paper. It is through the influence and labors of the press principally that the battle is to be fought and won. The paper has to bear the front of the fight, and every Democrat who desires to see the destiny of our government taken out of the hands of the reckless and corrupt perjured mongrels who now control it, should make it his duty to take his county paper. If he is not Democrat enough to do this, it would take a microscope to discover the amount of Democracy contained in his professions. Give your county paper the preference in all cases." Another exchange truthfully and pointedly says: "The man who neglects to subscribe for his local paper that he may be better enabled to take the distant city daily, is like the mother who neglects her children in going abroad to solicit aid for foreign missions."

NEW BOOK.—Mr. Wm. Cromwell, agent for this county, is canvassing for subscribers to a very elegant and useful book with the title of "Great Fortunes and How they were Made; or, The Struggles and Triumphs of our Self-Made Men." James D. McCabe, Jr., is the author. The book is very interesting, comprising an octavo volume of 633 pages, elegantly printed and bound, and contains 31 first-class wood engravings. It can be obtained only by subscription, in fine cloth binding at $4 50. Mr. Cromwell is now canvassing the northern part of the county and will be in Woodland in a few days.

NEW PARISH.—In noting the fact that Archbishop Alemany has constituted Woodland a Parish of itself, over which Rev. D. Spelman, formerly of Columbia, Tuolumne county, is appointed pastor, the Sacramento *Bee* adds: "Woodland, in many respects, is like Sacramento; she rejoices in an industrious town population, and a wealthy surrounding constituency, and the promise of future prosperity is healthy and well founded."

EVIDENCE OF PROSPERITY.—The popular dental firm of Prather & Plomteaux have at great expense purchased a new dental chair which surpasses anything we have seen in that line, and is well worthy an inspection. We are pleased to add in this connection that Messrs. Prather & Plomteaux are doing, as they well deserve to, a good and flourishing business. The secret of this is that they are really good dentists.

SCHOOL ELECTION.—To-day (Saturday) the voters of Woodland School District will decide by ballot whether they are willing to pay their proportion of taxes necessary for the purchase of a site and erection of a new school house as asked for by the Trustees. From the universal acquiescence, so far as we have learned, it will no doubt be carried by a very large majority.

MONUMENT SCHOOL DISTRICT.—We find in Thursday's *Union* the report of Monument public school, Yolo county, for four months from November 21st, 1870, D. W. Ballou, teacher: Evaline Hubbard, Ida Fulton, Emma Cantrel, Olive Ferguson, Warren Comstock and John Fulton are entitled to the roll of honor for improvement and deportment.

COMPLETED.—The Levee of Reclamation District 108, on the west bank of the Sacramento river, in Yolo and Colusa counties, which is about 50 miles in length has been completed, and the contractor, J. M. Lemon, has gone down, with his men, teams and camp material to work on the Sonoma extension of the California Pacific Railroad.

THE ASSESSOR AROUND.—Notice is given in our advertising columns by J. B. Richardson, Assistant Assessor of Internal Revenue, that he will be in Woodland from the 20th to the 25th of March, inclusive, and at Knight's Landing on the 27th and 28th, and receive statements of income and applications for special tax.

CATHOLIC BALL.—The ball given last evening, for the benefit of the Catholic Church, was a grand success. Washington Hall was crowded.

For the very best Photographs, go to BRADLEY & RULOFSON, No. 429 Montgomery Street, San Francisco. ☞ Closed on Sundays. ☜

From Capay Valley.

EDITOR DEMOCRAT:—Not knowing of any one in our Valley who ever writes a line to your worthy paper, I assume the responsibility.

Crops look as fine in this section of the country as I have ever seen them any year in the past. Upon the ranch of Walton & Tabor, in this Valley, may be seen two hundred acres of wheat that will average one foot in hight, and just so on many other ranches. C. V. Fowler, C. W. Davis and P. G. Everett are about the most extensive farmers in our Valley.

I noticed an item in your paper of March 4th, about "Yolona," the beautiful daughter of "Norfolk." Upon the ranch of W. Lambert, in Capay Valley, may be seen one of the finest specimens of the horse kind, a son of the noble "Norfolk." He is a beautiful sorrel, weighs 680 pounds, and will not be a year old until May next. For beauty and activity he is unsurpassed. Mr. Lambert expects to see the day when "Vetoe" will be second to no "Norfolk" colt. R. J. M.

ARRESTED.—One day last week an ugly looking weapon was found in the jail yard by Sheriff Bullock. The yard is inclosed by a high wall having but one entrance, and that from the rear of the jail, through which the prisoners have access once every day. The weapon had evidently been thrown over the wall from the outside by some one, with a view of assisting the prisoners to escape. Watch was kept, but it was several days before the cunning hand could be discovered. In the mean time the game was several times repeated, and four knives and quite a stock of burglar's tools were secured by the officers. On Monday last the guilty party was caught in the act, arrested and lodged in jail. He is a Chinaman, "Jim Nan," who formerly served a term in the County Jail for a murderous assault on one of his countrymen. He has been committed to answer before the Grand Jury on the charge now preferred against him. It is not known who his advisers, aiders and abetters are, but they would do well to take warning in time, lest they realize the fact that their business is an unhealthy one when it is too late to repent.

ACCIDENT.—At Capay Valley, on Wednesday last, a man named Cyrus Alexander was seriously injured by a horse falling upon him. He was unconscious at last accounts, and it was feared the injuries might prove fatal. He is a single man and was "breaking" the colt at the time of the accident.

Since the above was received we learn that Alexander has died of his injuries.

BEGIN RIGHT.—It strikes us that one of the first things that should receive the attention of the Board of Trustees is the proper laying out of streets and blocks, so that there can be some method observed in building up the town, and also to assist officers in the performance of their duties. In fact this is a matter of necessity.

DID NOT AVAIL.—The negro vote was cast solid for the Radical candidates at our town election, but even that did not avail them. When the Democracy cannot carry an election without "the colored vote," they propose to hang up their fiddle.

APPRECIATED.—Wood & Simpson's Band played for a ball at Rocklin on Friday evening. They are also engaged by the Odd Fellows at Auburn, for a ball on the 20th of April, at $20 each, expenses paid.

SILK WORM EGGS.—A correspondent of the Solano *Democrat* says that a few days ago the Silk Association at Davisville, carefully arranged and packed 1,000 ounces of silk worm eggs for exportation to France.

WATER WORKS.—Mr. Peck is going ahead in earnest with his boring and is putting in an eight-inch pipe. It is not beyond the possibilities that he may get an artesian well—hope so, at any rate.

CATHOLIC SERVICES.—Mass will be celebrated by Father Spelman in Davisville, at 9 A. M., and in Woodland at 11.30 A. M., on Sunday, March 19th.

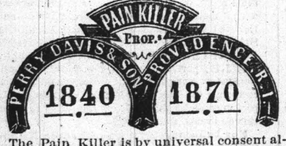
SPECIAL NOTICES.



The Pain Killer is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medical preparations. Its instantaneous effect in the eradication and extinction of Pain in all its various forms incident to the human family, and the unsolicited written and verbal testimony of the masses in its favor, have been and are its own best advertisements.

The ingredients of the Pain Killer, being purely vegetable, render it a perfectly safe and efficacious remedy taken internally, as well as for external applications, when used according to directions. The stain upon linen from its use is readily removed by washing with alcohol.

This medicine, justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over thirty years, and has found its way into almost every corner of the world; and wherever it has been used the same opinion is expressed of its medical properties.

In any attack, where prompt action upon the system is required, the Pain Killer is invaluable. Its almost instantaneous effect in relieving pain is truly wonderful; and when used according to directions is true to its name, a Pain Killer. mh18

IF YOU FEEL DULL, despondent, drowsy, debilitated, have frequent headache, mouth tastes badly, poor appetite, and tongue coated, you are suffering from torpid liver, or "Biliousness." Nothing will cure you so speedily and permanently as Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It also cures all severe lingering coughs, and tones up and strengthens the whole system. Sold by druggists. To surely avoid counterfeits, see that Dr. Pierce's private U. S. Government stamp is on the outside wrapper.

ALL WHO SUFFER from coughs, colds, bronchitis, croup, whooping-cough, and the most to be dreaded of all, consumption, can find sure relief in Dr. Wistar's Balsam of Wild Cherry, which always cures when other remedies fail.

THE GREAT
BLOOD PURIFIER.

Hear the Voice of the People!

JUDGE S. HEYDENFELDT says: "My attention was called to it about eighteen months ago, when I had been suffering with rheumatism for more than a year, and had failed to find relief from other remedies. The YERBA SANTA relieved me entirely in two days. Some ten or twelve cases of Rheumatism, two cases of Gout and two cases of Neuralgia have been relieved within my immediate knowledge." R. H. SINTON says: "I fully concur with Judge Heydenfeldt in regard to the curative powers of YERBA SANTA. I have myself used it, and take pleasure in recommending its use to those afflicted with Rheumatism in any of its forms." T. J. JENKINS, M. D., (Physician to Butte County Hospital,) says: "I have used YERBA SANTA for some years in my private practice as physician. I have found it invaluable in cases of Chronic Rheumatism, and of much benefit as an alterative BLOOD PURIFYER and tonic." FRANK MATHEWS, of Oroville, says: "Some years since, I was a martyr to Rheumatism, and feet, unable to move except with crutches, at all times suffering great pain. I was induced to try YERBA SANTA. I soon experienced great benefit from its use. I am at the present time strong and healthy, and recommend all who are afflicted as I was to try it." CHAS. YERBA SANTA. WALDYER, of Cherokee, Butte county, states: "For years I suffer from Rheumatism, most painful type and was until I was induced to try YERBA SANTA, with feet restoration to health. I have recommended it to my many friends, and in all cases a perfect, a speedy and cure was the result of its use." J. R. ROBERTS, of San Francisco, states: "I had for three years been afflicted with Rheumatism, to such an extent that in all that time I was unable to do any work. I was at last induced to try YERBA SANTA; after using two bottles I was completely cured, and am now as well as I ever was in my life." M. H. DARRACH (County Clerk of Butte county,) says: "I have seen much of the beneficial effects of YERBA SANTA in Scrofula, also in Salt Rheum, Rheumatism and Neuralgic affections. I believe I know of no instance where it has failed to cure." YERBA SANTA completely restores the system when impaired by disease, revives the action of the kidneys, and radically cures scrofula, Salt Rheum and all eruptive and cutaneous diseases. It is PURELY VEGETABLE, being made from an herb indigenous to California. It is therefore peculiarly suitable for use by Females and Children, as a Blood Purifier and Renovator. YERBA SANTA is for sale by all dealers in family medicines.

HENRY T. HELMBOLD'S
CONCENTRATED

The Great Diuretic,

Has cured every case of Diabetes in which it has been given, Irritation of the neck of the bladder and inflamation of the kidneys and bladder, ulceration of the kidneys and bladder, retention of urine, diseases of the prostate gland, stone in the bladder, calculus, gravel, brick dust deposit and mucous or milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: Indisposition to exertion, loss of power, loss of appetite, loss of memory, difficulty of breathing, weak nerves, trembling, horror of disease, wakefulness, dimness of vision, pain in the back, hot hands, flushing of the body, dryness of the skin, eruptions on the face, pallid countenance, universal lassitude of the muscular system, etc. Used by persons from the age of eighteen to twenty-five, and from thirty-five to fifty-five or in the decline or change of life; after confinement or labor pains; bed-wetting in children.

B

HELMBOLD'S EXTRACT BUCHU IS DIURETIC AND BLOOD-PURIFYING, and cures all diseases arising from habits of dissipation and excesses and imprudences in life, impurities of the blood, etc., superseding copaiba in affections for which it is used, and for syphilitic affections—in these diseases, used in connection with Helmbold's Rose Wash.

LADIES.

In many affections peculiar to ladies, the EXTRACT BUCHU is unequalled by any other remedy, as in chlorosis or retention, irregularity, painfulness or suppression of customary evacuations, ulcerated or schirrus state of the uterus, leucorrhœa or whites, sterility, and for all complaints incident to the sex, whether arising from indiscretion or habits of dissipation. It is prescribed extensively by the most eminent Physicians and Midwives for enfeebled and delicate constitutions, of both sexes and all ages (attended with any of the above diseases or symptoms).

O

H. T. HELMBOLD'S EXTRACT BUCHU

Cures Diseases arising from Imprudences, Habits of Dissipation, etc.,

In all their stages, at little expense, little or no change of diet, no inconvenience and no exposure. It causes a frequent desire and gives strength to the urinary organs, thereby removing obstructions, preventing and removing strictures, allaying pain, and inflammation so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the "poison" has, by the use of powerful astringents, been dried up in the system, to break out in a more aggravated form, and perhaps after marriage.

USE HELMBOLD'S EXTRACT BUCHU for all Affections and Diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. PRICE, ONE DOLLAR AND FIFTY CENTS PER BOTTLE.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn or turn of life, these Tonic Bitters have no equal. Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing in a remarkable degree the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long ill.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

No. 632 Kearney Street, corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 632 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness

Produces with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, muddiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, foted breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cure at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, lenth of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co. Express.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

Address: DR. J. F. GIBBON,
fe18-1y P. O. Box 1957, San Francisco, Cal.

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures Consumption, when the lungs are half consumed; in short, will cure all diseases whether of mind, body or estate, make men live forever, and leave death to play for want of work, and is designed to make our sublunary sphere a blissful Paradise, to which Heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will positively cure the worst cases of Catarrh in the Head, I only assert that which thousands can testify to. I will pay $500 Reward for a case that I cannot cure. A pamphlet giving symptoms and other information set free to any address. This Remedy is sold by most druggist in all parts of the world. Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of counterfeits and worthless imitations. See that my private Stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private Stamp, issued by the United States Government expressly for stamping my medicines, has my portrait, name and address, and the words "U. S. Certificate of Genuiness," engraved upon it, and need not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage; I am the only man now living that has the knowledge and right to manufacture the Genuine Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine.
